

As on the letter I can confirm that from 25th July for 5 weeks Southleigh Road will be closed, we will be maintaining access at all times for the residents within Southleigh Rd, this would include all deliveries, and refuse collections.

The diversion route that has been designed by the local highways authority will be clearly marked with the diversion signs. Poppy Way is not down as part of the agreed diversion route, however today we have been in contact with the local highways agent and have put forward your concerns and are waiting to hear back from them and if any alternative signage can be put up to deter drivers.
